Over 18 years of documentation experience with target audiences ranging from database administrators of the largest supercomputing systems in the world, to grandmothers trying to set up a printer for the first time. I can be as simple and concise or as technical and detailed as your customers require.

Petersen, Inc — *Documentation Supervisor*

Jun 2026 - Present

- Lead a team of 8 documentation specialists and final inspectors supporting complex defense, nuclear, and commercial manufacturing programs.
- Drive documentation priorities, delivery schedules, process improvements, and cross-functional resolution of quality and compliance issues across multiple concurrent programs.
- Develop and coach team members through performance goals and individualized Personal Development Plans, strengthening technical skills, accountability, career growth, and continuous improvement.

Magnit Global, on contract for Google — *Sr. Technical Writer II*

Dec 2023 - Dec 2025

- Converted Madcap Flare XML source from PDF-only output to HTML and PDF output
- Worked with aviation regulatory (FAA, CAA, CASA) experts to draft new regulatory content
- Developed new CSS styles

Watershed Informatics — *Sr. Documentation Engineer*

Oct 2022 - April 2023

- Wrote suites of documentation for API-based, DNA sequence alignment software
- Added new and edited existing error messages in Python source
- Added missing Python type hints
- Maintained docstrings (used to generate the docusite) in Python

Shape Security (part of F5) — *Sr. Technical Writer*

Oct 2018 - Oct 2022

- Implemented new Git workflow to store source and built content
- Developed publishing processes
- Added custom CSS to our portal to highlight content that was internal-only, based on Flare conditions
- Team lead for tools/processes and lead developer of help interface

Saltstack — *Sr. Technical Writer II*

Nov 2017 - Oct 2018

- Converted existing Sphinx/LaTeX docs platform to docs-as-code using Markdown/Git/Jekyll
- Docs team lead and hired new writers to build out team

inContact — *Principal Information Developer*

Apr 2014 - Nov 2017

- Developed custom MadCap Flare skins using jQuery, HTML5, and CSS3
- Developed a styles and standards guide for the documentation team
- Developed an improved form of image maps that I call hover maps
- Team lead for tools/processes and lead developer of online help – help.incontact.com

Adaptive Computing — *Sr. Technical Writer*

Oct 2008 - Apr 2014

- Developed MadCap Flare projects to single-source our help content for online and print
- Implemented jQuery UI plugins to improve usability of content
- Created a new landing page that reduced the time it took for customers to find the content they needed
- Team lead for tools/processes and lead developer of help interface
